Comparing Natural Immunity with Vaccination

By Trevor Gunn BSc, RSHom.

This booklet challenges many of the assumptions that have been made about vaccination and the role the germ plays in disease. Available from The Informed Parent. Trevor's previous booklet 'Mass Immunisation' is now out of print.

Vaccines – This book could remove the fear of childhood illness

By Trevor Gunn BSc, RSHom.

This book illustrates in both easy to grasp science and holistic overview how certain sectors of the medical community have misinterpreted the fundamental nature of disease thereby creating an unnecessary fear of illness. A fear that has led us to accept seemingly protective vaccines with a desperation that has left us oblivious to their consequences. A solely orthodox medical approach to health & illness conceals the true ease in which serious disease can be avoided and increased health can be attained. The information presented in this book goes a long way towards satisfying the need for uncensored information critical for making effective health choices.

Available from www.amazon.co.uk

A Mother's Vaccine Dilemma – How To Make your Choice with Confidence

By Trevor Gunn BSc, RSHom

This publication is the book form of Trevor's booklet Comparing Natural Immunity with Vaccination, therefore most of the content is the same.
